2 www.elevatorworld.com • Insert Month Year Focus on Doors and Door Operators by Ralph M. Newman
Elevator Door Operators: Then and Now Attendants of yesteryear have given way to high-tech, automated solutions. Columbia Elevator is an industry leader in the manufacture of elevator cabs, entrances and door systems, serving OEM's, Independents, Mod Managers, Construction Managers, Maintenance Supervisors, Architects and Consultants. An elevator (US, Canada and Japan) or lift (Commonwealth countries) is a type of vertical transportation device that moves people or goods between floors (levels, decks) of a building, vessel, or other structure. Elevators are typically powered by electric motors that drive traction cables and counterweight systems like a hoist, although some pump hydraulic fluid to raise a cylindrical piston ...Parts of Elevator and Its Function. In this article, we will tell you about the various parts of elevators and its function. Elevators have been around for many years. Let's here take a closer look at parts of elevators and its function.. Speed Governors
