Golden Princess is a Grand-class cruise ship with Princess Cruises that entered service in 2001. She is the sister ship of Grand Princess and Star Princess. She measures 109,000 gross tons and carries 2,600 passengers (double occupancy) plus 1,100 crew members. Golden hamsters originate from Syria and were first described and officially named in 1839 by British zoologist George Robert Waterhouse. Waterhouse's original specimen was a female hamster; he named it *Cricetus auratus* or the "golden hamster". The skin of the specimen is kept at the Natural History Museum in London. The town is situated on the border of B.C. and Alberta, about a 3-hour drive west of Calgary, or a 9-hour drive east of Vancouver. From Golden, you can access Lake Louise or Glacier National Park in an hour, Banff in an hour and a half, Revelstoke in less than two hours, and Jasper in four hours.. Golden sits between the Purcell Mountains and the Canadian Rockies, and at the junction of the ...
