

Download Issues In The Developmental Approach To Mental Retardation

Developmental disability is a diverse group of chronic conditions that are due to mental or physical impairments that arise before adulthood. Developmental disabilities cause individuals living with them many difficulties in certain areas of life, especially in "language, mobility, learning, self-help, and independent living".

Developmental disabilities can be detected early on and persist ...Welcome to NorthKey Community Care! We understand that everyone faces obstacles and challenges in their life. We are here to help. Our staff is experienced in helping in many areas of need, including: Mental retardation is a developmental disability that first appears in children under the age of 18. It is defined as an intellectual functioning level (as measured by standard tests for intelligence quotient) that is well below average and significant limitations in daily living skills (adaptive functioning). Intellectual disability (ID), also known as general learning disability and mental retardation (MR), is a generalized neurodevelopmental disorder characterized by significantly impaired intellectual and adaptive functioning. It is defined by an IQ under 70 in addition to deficits in two or more adaptive behaviors that affect everyday, general living.. Once focused almost entirely on cognition ...
