

Download Np Pediatric Primary Care Board And Certification Practice Test

To provide patient care, nurse practitioners need to be both licensed and certified. Licenses enable one to practice as a nurse practitioner, whereas certifications demonstrate one's proficiency in a given specialty. Pediatric nurse practitioners (PNPs) specialize in providing a range of healthcare services to children from birth to early adulthood. Among nurse practitioners, there are two main subfields of practice: acute care and primary care. Get ready to pass the Primary Care Certified Pediatric Nurse Practitioner (CPNP-PC) exam with BoardVitals. Gain access to more than 1300 Pediatric Nurse Practitioner board review practice questions with detailed explanations for both correct and incorrect responses. Children's Urgent Care Clinics are available when your child has an illness or injury that's not serious enough for the emergency room, but can't wait until your Children's Physicians office opens. Urgent care hours are: Weekday evenings from 6 p.m. to 10 p.m. Weekends and holidays from noon to 10 p.m.
