

Download Owners Manual For Mercury 50hp 4 Stroke

Beta We have over 2500 manuals for marine, industrial engines and transmissions, service, parts, owners and installation manuals This specific marine engine manual is for the Evinrude/Johnson 5-70 hp Four-Stroke Outboards spanning 1995-2001. You can see the specific horsepower models covered listed below. My Mercury mechanics have told me these Mercruiser carburetor 90-HP four-stroke motors have had continuing carburetor clog-up problems, because of the miniscule passages in them, much smaller than the old carburetors two-strokes used. The owners manual for a Honda 130 HP states that at 20 hours or the first month "check-adjust" the valve clearance. Later in the maintenance schedule it states that This should be done every year or every 200 hours.
