The long awaited update to this classic text, McDonald's Veterinary Endocrinology and Reproduction provides students of veterinary medicine and animal science a concise and practical textbook specifically for endocrinology and reproduction in domestic animals. McDonald's Veterinary Endocrinology and Reproduction is widely used in veterinary schools throughout the United States and Canada, with the Spanish translation used in Latin America and Spain. This mainstay is an essential part of veterinary and agricultural education. show more

Reproduction and Endocrinology Scientific Advisory Group. The mission of the Reproduction and Endocrinology Scientific Advisory Group (SAG) is to develop cooperative relationships between AZA, its Animal Programs, its accredited institutions, and the scientific community of reproduction and endocrine specialists and provide technical advice to enhance reproduction services for AZA Animal Programs.
